

## **Maths: Statement of Intent**

It is our intent at Clapham Terrace Primary School that all children embrace mathematics. All children feel confident, passionate and become enthusiastic mathematicians, regardless of their ability, prior experience or preconceptions. At Clapham we aim to provide a high-quality mathematics education with a mastery approach that has an emphasis on a deeper understanding, so that all children:

- Become fluent in the fundamentals of mathematics
- Reason mathematically
- Can solve problems by applying their mathematics.

We intend to provide a broad and balanced curriculum that is tailored to the individual needs of our pupils. A curriculum that allows them to progress systematically and smoothly through the years, from EYFS to Year 6. Promoting critical thinking and questioning, that allows them to link mathematical skills across subjects and scenarios.
