Equality Statement

In our school, we are committed to eliminate discrimination and advance equality of opportunity for all those with 'protected characteristics' under the Equality Act 2010, in relation to age, disability, ethnicity, gender, gender reassignment, maternity and pregnancy, religion and belief, sexual identity and marriage and civil partnership status. We will endeavour to celebrate good relations between all.

(Our full Equality Statement can be found on the school website)

Clapham Terrace Community Primary School and Nursery

Special Education Needs and Disability (SEND) Policy

Clapham Terrace Primary School has a named SEND and Inclusion Manager (often referred to as the 'SENCO') who works in collaboration with the Head Teacher to ensure that the Special Educational Needs and Disability Policy works within the guidelines and Inclusion Policy of the Code of Practice (2014), the local Authority and other policies current within the school.

Clapham Terrace school provides a broad and balanced curriculum for all children. The National Curriculum is our starting point for planning teaching which meets the specific needs of individuals and groups of children. When planning, teachers set suitable learning challenges and respond to children's diverse learning needs. Some children have barriers to learning that mean they have special needs and require particular action by the school.

It is our belief that all children have an equal right to a full and rounded education which will enable them to achieve their full potential. We use our best endeavours to secure special educational provision for pupils whom this is required, that is 'additional to and different from' that provided within the differentiated curriculum, to better respond to the four areas of need identified in the SEND **Code of Practice (September 2014)**.

- Communication and interaction
- Cognition and learning
- Social, mental and emotional health
- Sensory/physical

Every September, the school updates its **Special Educational Needs and Disability Information Report**, which details the provision made by the school to meet such needs. This report is published on the school website.

What are special educational needs?

A child or young person has special educational needs if he or she has a learning difficulty or disability which calls for special educational provision to be made for him or her. A learning difficulty or disability is a significantly greater difficulty in learning than the majority of others of the same age.

Special educational provision means educational or training provision that is additional to, or different from, that made generally for others of the same age in a mainstream setting in England. Health care provision or social care provision which educates or trains a child or young person is to be treated as Special Educational provision. (**Code of Practice 2014**.)

This SEND policy details how, at Clapham Terrace Primary School, we will ensure that the necessary provision is made for any pupil who has special educational needs and that those needs are known to all who are likely to work with them. We will ensure that teachers are able to identify and provide for those pupils with special educational needs, allowing them to join in all school activities together with pupils who do not have special educational needs.

Aims and Objectives

Our aims are:-

- To create an environment that meets the special educational needs of each child in order that they can achieve their learning potential and engage in activities alongside pupils who do not have SEND.
- To request, monitor and respond to parents/carers and pupils views in order to evidence high levels of confidence and partnership.
- To make clear the expectations of all partners in the educational and health care process.
- To ensure a high level of staff expertise to meet pupil need, through well targeted continuing professional development.
- To ensure support for pupils with medical conditions to enable their full inclusion in all school activities by ensuring consultation with health and social care professionals.
- To identify the roles and responsibilities of all staff in providing for children's special educational needs.
- To enable all children to have full access to all elements of the school curriculum by making reasonable adjustments to the curriculum and learning environment.
- To work in cooperation and productive partnerships with the Local Authority and other outside agencies, to ensure there is a multi-professional approach to meeting the needs of all vulnerable learners.

Equal Opportunities and Inclusion

Through all subjects we ensure that the school meets the needs of all, taking account of gender, ethnicity, culture, religion, language, sexual orientation, age, ability, disability and social circumstances. It is important that in this school we meet the diverse needs of pupils to ensure inclusion for all and that all pupils are prepared for full participation in a modern, multi-ethnic society. We also measure and assess the impact regularly through meetings with our SEND coordinator and individual teachers to ensure that all children have the opportunity to succeed.

Through appropriate curricular provision, we respect the fact that children:

- Have different educational and behavioural needs and aspirations.
- Require different strategies for learning.
- Acquire, assimilate and communicate information at different rates.
- Need a range of different teaching approaches and experiences.

Teachers respond to children's needs by:

- Providing support for children who need help with communication, language and literacy.
- Planning to develop children's understanding through the use of all available senses and experiences.
- Planning for children's full participation in learning, and in physical and practical activities.
- Helping children to manage and be responsible for their behaviour and to take part in learning effectively and safely.
- Helping children to manage their emotions, particularly trauma or stress, and to take part in learning.

Identification, Assessment and Provision

Provision for children with special educational needs is a matter for the whole school. The Governing Body, the school's Head Teacher, the SENCO and all other members of staff, particular class teachers and teaching assistants have important day-to-day responsibilities.

Educational provision for children with Special Educational needs and Disabilities is the responsibility of all teachers.

The school will assess each child's current levels of attainment on entry in order to ensure that they build on the patterns of learning and experience already established during the child's pre-school years. If the child already has an identified special educational need, this information should be transferred from other partners in their Early Years setting and the class teacher and SENCO will use this information to:

- Provide starting points for the development of an appropriate curriculum.
- Identify and focus attention on action to support the child within class.
- Use the assessment process to identify any learning difficulties.
- Ensure ongoing observation and assessments provide regular feedback about the child's achievements and experiences to form the basis for planning the next steps of the child's learning.

The Role of the SENCO

The Special Educational Needs Co-ordinator's (SENCO's) responsibilities include:

- Overseeing the day-to-day operation of the school's SEND Policy.
- Co-ordinating the provision for children with SEND.
- Liaising with and advising fellow teachers.
- Overseeing the records of all children with SEND.
- Liaising with parents of children with SEND.
- Contributing to the in-service training of staff.
- Liaising with local high schools so that support is provided for Year 6 pupils as they prepare to transfer.
- Liaising with external agencies including the Specialist Teaching Service (STS) and Educational Psychology Services, Health Services, Social Services and voluntary bodies.
- Co-ordinating and developing school based strategies for the identification and review of children with SEND.
- Making visits to classrooms to monitor the progress of children on the school's SEND register.

Monitoring Children's Progress

The school's system for observing and assessing the progress of individual children will provide information about areas where a child is not progressing satisfactorily. Teachers may need to consult the SENCO to consider what else might be done. This review might lead to the conclusion that the pupil requires help over and above that which is normally available with the particular class or subject.

The key test of the need for action is that current rates of progress are inadequate. Adequate progress can be identified as that which:

- Prevents the attainment gap between the child and his peers from widening.
- Demonstrates an improvement in the child's previous rate of progress.
- Ensures access to the full curriculum.
- Demonstrates an improvement in self-help, social or personal skills.
- Demonstrates improvements in the child's behaviour.

In order to help the children with special educational needs, Clapham Terrace Primary School will adopt a graduated response. This may see us using specialist expertise if as a school we feel that our interventions are still not having an impact on the child. The school will record the steps taken to meet the needs of individual children through use of a PLP (Personalised Learning Plan) and review sheet/provision map and the SENCO/Inclusion Manager will have responsibility for ensuring that records are kept and available when needed.

If we refer a child for statutory assessment for consideration for a statutory Education Health and Care Plan, we will provide the LA with a record of our work with the child to date.

When any concern is initially noticed it is the responsibility of the class teacher to take steps to address the issue. Parents will be consulted and specific intervention put in place and monitored for a period of up to six weeks. If no progress is noted after this time the child may be added to the school SEND register with parental permission. The class teacher, after discussion with the SENCO/Inclusion Manager, will then provide interventions that are additional to those provided as part of the school's differentiated curriculum and the child will be given individual learning targets, which will be applied within the classroom. These targets will be monitored by the class teacher and teaching assistants within the class and reviewed formally with the SENCO/Inclusion Manager, parents and young person.

Reasons for a child being added to the SEND Register may include the fact that he/she:

- Makes little or no progress, even when teaching approaches are targeted particularly in a child's identified area of weakness.
- Shows signs of difficulty in developing literacy or mathematics skills which result in poor attainment in some curriculum areas.
- Presents persistent emotional or behavioural difficulties which are not improved by the behaviour management techniques and pastoral care systems usually employed in the school.
- Has sensory or physical problems, and continues to make little or no progress, despite the provision of specialist equipment.
- Has communication and / or interaction difficulties, and continues to make little or no progress.

Partnership with Parents

Partnership plays a key role in enabling children and young people with SEND to achieve their potential. Parents hold key information and have knowledge and experience to contribute to the shared view of a

child's needs. All parents of children with special educational needs will be treated as partners and supported in playing an active and valued role in their child's education.

Children and young people with special educational needs often have a unique knowledge of their own needs and their views about what sort of help they would like. They will be encouraged to contribute to the assessment of their needs, the review process and transition between school phases.

The school website contains details of our practice providing for special educational needs and disabilities: The Special Educational Needs and Disability Information Report.

At all stages of the special needs process, the school keeps parents fully informed and involved. We take account of the wishes, feelings and knowledge of parents at all stages.

We encourage parents to make an active contribution to their child's education and have regular meetings each half term to share the progress of children with SEND with their parents. We inform the parents of any outside intervention, and share the process of decision-making by providing clear information relating to the education of their child.

Parents always have access to the SENCO/Inclusion Manager through a school email address and are invited to make appointments if they wish to discuss concerns they have.

The Nature of Intervention

The Inclusion Manager and the child's class teacher will decide on the action needed to help the child progress in the light of earlier assessments. This may include:

- Different learning materials or specialist equipment.
- Some group or individual support, which may involve small groups of children being withdrawn to work with the support of Teaching Assistants or be provided with more specialist intervention programmes.
- Extra adult time to devise/administer the nature of the planned intervention and also to monitor its effectiveness.
- Staff development and training to introduce more effective strategies.

After initial discussion with the SENCO/Inclusion Manager, the child's class teacher will be responsible for working with the child on a daily basis and ensuring the delivery of any individualised programme in the classroom. Parents will continue to be consulted and kept informed of the action taken to help their child, and of the outcome of any action. Parents will be invited to meet regularly with the class teacher and SENCO/Inclusion Manager and they will be invited to have specific time slots to discuss individual learning targets and progress with the Inclusion Manager on a termly basis.

The uses of Outside Agencies

These services may become involved if a child continues to make little or no progress despite considerable input and adaptations. They will use the child's records in order to establish which strategies have already been employed and which targets have previously been set.

The external specialist may act in an advisory capacity, provide additional specialist assessment or be involved in teaching the child directly. The child's individual targets will set our strategies for supporting the child's progress. These will be implemented, at least in part, in the normal classroom setting. The delivery of the interventions recorded in the PLP continues to be the responsibility of the class teacher. Our

school subscribes to weekly support from the Local Authority's Specialist Teaching Service (STS), a counselling service, the Educational Psychology Service and other health related support services.

Outside Agencies may become involved if the child:

- Continues to make little or no progress in specific areas over a long period.
- Continues working at levels substantially below that expected of children of a similar age.
- Continues to have difficulty in developing literacy and mathematical skills.
- Has emotional or behavioural difficulties which regularly and substantially interfere with the child's own learning or that of the class group.
- Has sensory or physical needs and requires additional specialist equipment or regular advice or visits by a specialist service.
- Has ongoing communication or interaction difficulties that impede the development of social relationships and cause substantial barriers to learning.
- Despite have received intervention; the child continues to fall behind the level of his peers.

School request for statutory assessment for consideration for an Education Health and Care Plan (EHCP) (previously known as a 'Statement' of special educational need)

A request will be made by the school to the Local Authority if the child demonstrates significant cause for concern. The Local Authority will be given information about the child's progress over time, and will also receive documentation in relation to the child's special educational needs and any other action taken to deal with those needs, including any resources or special arrangements put in place.

The evidence will include:

- Previous PLPs and targets for the pupil.
- Records of regular reviews and their outcomes.
- Records of the child's health and medical history where appropriate.
- National Curriculum attainment levels in literacy and numeracy.
- Education and other assessments, for example from an advisory specialist support teacher or educational psychologist.
- Views of the parents.
- Advice from outside agencies.

The parents of any child who is referred for statutory assessment will be kept fully informed of the progress of the referral. Children with an EHCP will be reviewed each half term in addition to the statutory annual assessment. When this coincides with transfer to high school, the SENCO/Inclusion Manager from the high school will be informed of the outcome of the review.

Strategies employed to enable the child to progress will be recorded with a Personal Learning Plan which will include information about:

- The short term targets set for the child.
- The teaching strategies to be used.
- The provision to be put in place.
- How the targets will help the child in their learning.
- What they are responsible for.
- How the child can be successful.

- The review date.
- The child's views will be sought and taken into account, as will those of the parents, whose support is vital if progress is to be achieved and maintained.

Each child with SEND has a red file based in class to monitor and track progress of the intervention put in place to support child's learning.

Access to the Curriculum

All children have an entitlement to full access to our broad, balanced and enriched curriculum.

We support children in a manner that acknowledges their entitlement to share the same learning experiences that their peers enjoy. Wherever possible, we do not withdraw children from the classroom situation. There are times though when, to maximise learning, we ask the children to work in small groups, or in a one-to-one situation outside the classroom.

Allocation of resources

The SENCO/Inclusion Manager and Head Teacher are responsible for the operational management of the specified and agreed resourcing for special needs provision within the school, including the provision for children with Education Health and Care Plans (EHCPs).

The Head Teacher and the SENCO/Inclusion Manager meet regularly to agree on how to use funds directly related to statements.

The Role of the Governing Body

The Governing Body has a statutory responsibility to ensure that full provision is made for pupils with SEND and to ensure that funds and resources are used effectively to that end. A designated SEND governor has particular responsibility for monitoring and evaluating the effectiveness of the school's provision for pupils with SEND. This governor meets regularly with the SENCO/Inclusion Manager to discuss the use of resources for this purpose.

The Head Teacher informs the Governing Body of how the funding allocated to support special educational needs has been deployed and of its effectiveness.

Monitoring and Evaluation

The Governing Body is responsible for monitoring and reviewing this policy and receives reports from the Head Teacher, the SENCO/Inclusion Manager and the SEND Governor. It will review this policy every three years, or sooner if necessary, or in response to changes in national SEND policy.
